UK Aid Direct Theory of Change

**THEORY OF CHANGE**

- Poverty is reduced in target countries through achievement of MDGs/SDGs
- Improved contribution by civil society to deliver solutions for sustained poverty reduction in marginalised vulnerable communities.

**OUTPUT**
- Improved access, supply and quality of basic services for specific target groups
- Better informed citizens, held decision makers to account
- Increased opportunities for economic empowerment
- Shift in social attitudes and behaviours resulting in positive norm change in targeted groups
- Improved delivery of interventions as a result of shared evidence and learning within the Fund
- Improved access to flexible, responsive and adaptive funding

**INPUT**
- Strategic flexible funding rounds
- Civil Society Organisation competencies and
- Technical analysis and advice through a consortium approach
- Cost effective fund management

**ISSUE**
Vulnerable/marginalised communities affected by complex causes of poverty, conflict, lack of access, quality, knowledge, policies, social attitudes and behaviours.
